## **Project Title: Shohei Ohtani Website**

This will be an informational website consisting of multiple pages. There will be a navigation bar on the top to help users with navigation.

- **Home Page/Introduction** – This will include either a large hero image or a highlight video in the background to catch users' attention. It will also include a quick summary of who he is and introduce the other pages in the site. Could also include MLB stats like batting average, ERA, home runs, etc.
- **Early Life and Amateur Career** - Give background context and his journey to the pros.
- **Professional Career** - I'm thinking of building some sort of timeline to help visualize this.
- **Awards and Achievements**
- **Media Gallery** - Either highlight videos or a collection of photos from different seasons and teams?
- **Sources** - A list of sources used for this site.
